- CSS
- C#
- JavaScript
- Clojure
- Python
- Swift
- PHP
- React

CAREER OBJECTIVE

Under-graduate in computer science with experience working across the full stack of software development. Looking for a role where I can grow and learn from experienced team members while drawing on project experience I have already successfully executed.

Work Experience

Retail Associate

Walmart

Sep 2022 - Mar 2023

Maintenance Specialist

EDUPRIZE SCHOOLS

Jan 2022 - Aug 2022

PROJECTS

Social Media Handler

February 2023 - Current

- Built a responsive app using React and Javascript that allowed users to schedule social media posts across Instagram, Twitter, Facebook, Youtube, etc.
- APIs that connect the app to Instagram, Twitter, and Facebook
- Allows users to set a date to post photos, create captions, and add additional features.
- Secure data storage
- More features are continually being added to the site.

Login Form

April 2023 - April 2023

- Present a firm understanding of programming languages such as React, HTML, CSS, and Javascript.
- Implement a login system that connects with an external database. The project connects with Firebase and stores users' information.
- Implement common functionality with a login system. Such as signing up, logging in, resetting passwords, and updating users' profiles.
- Aimed to be a simple project that will be added on to with different concepts.
